Country Matters – song cycle for tenor and string trio

A setting of verses from the Buddhist text Dhammapada translated by Frances Booth. The work includes temple bells recorded at the major Buddhist sites.

Ronald Corp is Britain's most prolific choral conductor-composer, and with this work he breaks fascinating new ground. The Dhammapada is a collection of sayings of the Buddha transmitted orally before being written down 2,000 years ago. Set for small choir, it becomes a beguiling work, full of scrunchy dissonances but graceful to the ear.' (Michael Church, Independent, January 29th, 2011 - 'Album of the Week')

The Yellow Wallpaper – scena for mezzo soprano and string quartet with double bass

A disc of choral music including a setting of poems in memory of a young boy, the Missa San Marco which was premiered in London in 2002 and repeated at St Mark's Venice in 2003 and Dover Beach commissioned by the BBC Singers also in 2003.

Ronald Corp has established himself as a force to be reckoned with on the British music scene. He's also an adept composer, as this handsome anthology of his work makes clear.
